Education

Master of Science in High-Performance Computing Engineering (In Progress)

Politecnico di Milano, Italy

2023 - Present

Current GPA: 29.50 / 30

Bachelor of Science in Engineering Physics

Politecnico di Milano, Italy

2017 - 2023

Final Grade: 104/110

Technical Skills

Programming Languages: Python, C++, R, CUDA, MPI, OpenMP

Database Management: MySQL, MongoDB, Neo4j, Elasticsearch

Tools and Technologies: Git, Docker, Singularity, Linux

Projects

Eikonal Solver — github.com/DarioSantoroDS/Eikonal-Solver

Implementation and analysis of multiple numerical solvers for the Eikonal equation.

Navier-Stokes Solver — github.com/DarioSantoroDS/Navier-Stokes-equation-solver

Implementation of a high-performance solver for the incompressible Navier-Stokes equations.

Database Project — github.com/DarioSantoroDS/SMBUD_prj

Data analysis and NoSQL database project on different datasets.

Fluid-Structure Interaction Project — github.com/DarioSantoroDS/PDE_Project

Implementation of a high-performance solver for a fluid-structure interaction problem.

Experience

First-Level Technician for Audio/Video Platforms

Jobbing, Italy

2021 - 2022

- Provided first-level technical support for AV platforms.
- Assisted users in troubleshooting connectivity and hardware issues.
- Coordinated with higher-level technical teams to resolve critical issues.

Extracurricular Activities

Competed in Kaggle programming contests.

Competed in a AI-themed Hackaton.

Summer Camp Volunteer - Organized activities and mentored children.
